The structure, a giant art installation featuring caverns for members of the public to explore, has been visited by more than 2 million people in 43 countries around the world at iconic locations such as the Guggenheim in Spain and the Sydney Opera House in Australia.

Inspired by Islamic architecture and natural geometry, Mirazozo features winding passages of small domes inspired by repeat forms found in the bazaars of Iran. Inside the spaceship-shaped structure is a multi-coloured world of bright luminous green, red and blue stripes of light forming bouncing patterns of colour on the walls of five interlinked domes.

The delivery of this family entertainment space and the appointment of Futureama Productions to manage its operation represents a significant investment by Clare County Council but it is one that will add to what will be a hugely successful Fleadh Cheoil na hÉireann.

The MIRAZOZO luminarium will be open to the public at the following times:
