

Limerick Sports Partnership

The FAI in partnership with Vision Sports Ireland and Limerick Sports Partnership would like to try and develop an opportunity for children and adults in the Limerick region to play football.

Experienced, qualified coaches would like to run a 'come and try' day where people can learn the skills involved and play some fun games with other players with vision impairments.

There are already two existing VI football centres, one in Dublin and one in Cork and there is a pathway from club training to inter-centre competition and international football.

It's for all ages and abilities and new coaches are also very welcome to come and see what it's all about.

Please email **Nick Harrison**, FAI Football for All Development officer at nick.harrison@fai.ie or call him on **0860472051** to register your interest!
