

We are holding our monthly group for children aged 6-14yrs who have a brother or sister with special needs, this is a drop off group that encourages children to play and interact with peers in the same family situation. This is a space where they can play, learn and laugh with other children. The activities that are available at the group range from Art and crafts to music and baking. The next group will be held on Friday 7th September from 6-8pm in factory youthsplace Galvone industrial estate Roxboro limerick ,There is a cost of €5 per child to cover the cost of the venue and activities. There are no children with disabilities at this group so children are free to be children away from the disability world. This group is facilitated by older siblings of children with special needs. Please share this information with parents that use your service. If the would like to attend please email [support@lag.ie](mailto:support@lag.ie) or they can contact use via Facebook @limerickautismgroup

Kind regards

Keith Enright - Director/founder - Limerick autism group
