Dear Family Member,

The Service is currently involved in the early stages of developing a new Strategic Plan for the next five years, so that as an organisation we will continue to enhance and develop our services nationally.

As part of the strategic planning process, there will be surveys and meetings with staff, service users, families and others, so that we can have conversations in relation to what we do well, and how we can improve and identify future developments.

In order to ensure that the five year plan for the future is essentially person centred, we would be grateful for your involvement as it is so important that it reflects the opinions and experiences of those who use our Service, and I look forward to meeting with you and having creative discussions in this regard.

As part of our strategic planning process, the Service will be changing its name from Daughters of Charity Disability Support Services to a new name. This change of name is fully supported by the Provincial and Chair of our Board, Sr. Goretti Butler. It is such an exciting opportunity for us, and I look forward to hearing your suggestions during the engagement process. Any new name will be underpinned by our core values, culture and ethos, ensuring we retain our rich history as started by our founder Louise De Marillac, which will continue to guide us for future years.

I will be in contact with you again in relation to the above.

Yours sincerely,

Natalya Jackson
Chief Executive
