

Coronavirus: Waiting for a Vaccine

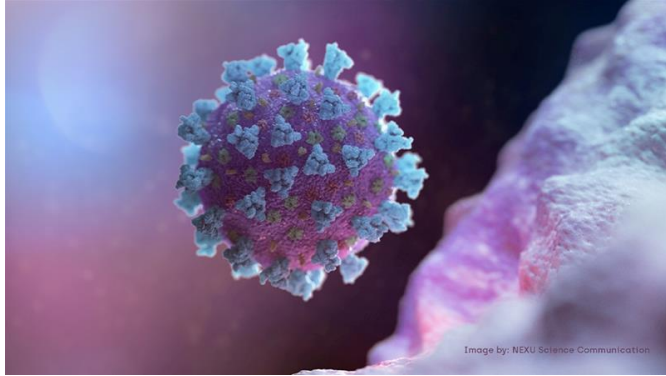

This Social Story was written by Gino Lerario gino.lerario@hse.ie for the North Tipperary Children's Services using Carol Gray's Social Story Method. To adapt it, go to www.carolgraysocialstories.com for the 10 criteria for writing Social Stories.

2

There are many viruses that our
bodies have learned to stop.

But Coronavirus is new.
Our bodies need more time to
learn how to stop it.

Our bodies will need help,
like a new medicine or a 'vaccine.'

Doctors and scientists are working
to find the right medicine,
but it will take time.

So while we're waiting,
we need to be careful.
