

Vehicles on the Road

There are many vehicles on the road so it's important to be careful.

Cars are vehicles
on the road.

Trucks and
tractors are
vehicles on the
road, too.

Vans and buses
are vehicles on
the road.

There are scooters,
motorbikes, and
bicycles on the road
as well!

Sometimes vehicles are parked along the road or in the car park.

Sometimes vehicles are stopped at the corner or at the traffic lights.

And sometimes vehicles are moving!

When cars are stopped or moving, we must be careful.

Which vehicle is parked?
Which vehicle is stopped?
Which vehicle is moving?
