Health Passport Information

The Health Passport (HSE) App has now been updated and is available on Google Play and Apple Stores to download.

The App has been developed in recognition of the challenges that exist for adults and children with a disability (and their families) accessing healthcare and communicating their needs.

The App now includes additional content and functions with sections on Critical Information, Person, Communication, Decision-Making, Medical History, Food & Drink, and Personal Care. There is an edit function where children and their parents can input in the information which can be accessed easily in hospital, GP practice, dentist etc.
